

Art Banking

Art Acquisitions and Sale

Santoren can identify market opportunities for buying and selling artwork based on your requirements.

We assist you with the purchase and sale of artwork and art collections and advise you on best methods of working with our art experts.

Wall Street at the Galleries

Santoren introduced a program of “Wall Street at the Galleries” in 2006.

We introduce our clients to various art events, including gallery openings and visits to private studios of renowned artists.

Santoren

Santoren was registered as an Investment Advisory firm late in 2006.

In 2007, a high percentage of assets were locked in a typical structure of asset allocation. As a result, the average performance of Santoren was similar to the performance of the overall market.

2008 results are based on Mr. Leszczynski's investment style using highly liquid index funds for the majority of asset allocation.

Estate Planning

Santoren helps you preserve the value of your art collection through our estate planning. With our help you can arrange the passing of your art collection to the next generation.

- Collaboration with trustees
- Assistance with bequests
- Division of your art assets

Links with art experts

Santoren provides you with referrals to internationally renowned art dealers, gallery owners and auction houses.

Management

Tomas Leszczynski is a founder and CEO of Santoren Inc. Mr. Leszczynski is responsible for all investment decisions.

Mr. Leszczynski worked as a Financial Advisor at UBS and as a broker at an Investment Bank on Wall Street. Mr. Leszczynski holds series 7 and series 66 securities licenses.

Mr. Leszczynski holds Master of Arts Degree and he directs operations of Santoren's Art Banking services.
